BARTROP. Pte .2110.

3rd . A.I.F. (6th.Reinf.)

(Missing)

Witness says he was missing after the attack on Lonesome Pine Hill on August 6th, which resulted in the taking of several lines of trenches.

A new firing line was established ahead of the captured trenches but which Bartrop never reached. It would have been almost impossible for any Australians therein to have been taken prisoners.

The majority of the wounded and killed were lying in the open between the various trenches held by the Australians. Some of the former managed to crawl into various trenches, etc, and were thus looked after and saved but there was too heavy shrapnel fire on the captured ground to allow of collecting the dead and attending the wounded lying in the open and they lie there still.

When informant left on August 12th Bartrop had not been reported wounded nor had he put in an appearance on August 12th. The general opinion is that he must be dead.

Informant was at the same table coming over from Australia as Bartrop so knew him well.
